CHICAGO, May 15 .- Sharply lower prices resulted in the wheat market today as a consequence of the sum-mary prohibition of new buying except to close up outstanding deals. Purchasers under such restrictions were so scarce that values broke 5c on the sale of three lots of 5,000 bushels, the smallest amounts in which trades are possible. It was on these three trades that the market reached the lowest point of an eleven cent over-night decline to \$2.48 for the July delivery. Prospects that the existing halt in option trading might be continued indefinitely formed the main de pressing influence. Opening prices, which ranged from 2c to 6c lower, with July at \$2.53 to \$2.55 and September at \$2.23 to \$2.26, were followed by additional setbacks of 2c to 5c and then a moderate rally.
